Case Study

Professional Football Player – Age 23

Current net income: 1 000 000 € / year

Together with his agent and family, he designs a long-term career strategy:

- First transfer at 25
- Second transfer at 28
- Third transfer at 32

Career income target by age 35: 30 000 000 €

With Index Universal Life, the full projected career value is structured, protected in case of death and strategically planned from day one — creating stability, liquidity and long-term control.*
